JOURNAL OF MILK AND FOOD TECHNOLOGY

INDEX TO VOLUME 24

AUTHOR INDEX

ADAMS, H. S., editorial: fifty years of leadership; a half century of sanitation progress, 252; editorial: professional sanitarian, 337; editorial: group action, 373

ALTMAN, L. B., 240 (see Charity)

ANDERSON, R. J., environmental health, past, present and future, 381

ARONS, H. M., problems of warehousing and storage of frozen foods, 276

BARFIELD, S., 274 (see Senn)

BARNUM, H. J., editorial: to fee or not to fee, 1

BAUGHMAN, R. W., 143 (see Igarashi)

BELKNAP, R. A., 240 (see Charity)

BELL, J. W., protection of food plants during national emergency, 186

BERNARDE, M. A., technology of crabmeat production - a bibliography, 211

BING, F. C., vitamin D milk today, 303

BROWN, D. C., effect of pipeline milking and bulk handling on the acid degree of raw milk, 204

BROWN, M. A., 19 (see Vanderzant)

CALBERT, H. E., sanitation of CIP lines influenced by cleaning solution temperature, 347

CARL, C. E., waste treatment by stabilization ponds, 147

CHARITY, L. F., cooling performances of farm bulk milk tanks, 240

CLACK, F. B., 1 (see Barnum)

COFFEE, G. D., industrial uses of welded lines - regulatory aspects, 159

CORASH, P., editorial: is federal milk regulation the answer? 171

DAHLBERG, A. C., editorial: why a double standard for milk? 69

DUNLOP, S. G., use of sewage effluent for irrigation of truck crops, 44

EHMANN, N. R., 274 (see Senn)

ENRIGHT, J. B., destruction of *Coxiella burnetii* in cream, chocolate milk and ice cream mixes, 351

EVANS, D. L., butterfat shrinkage in farm milk cooling tanks, 315

EVERETT, E. L., responsibilities of a sanitarian, 55

FAULKNER, J. D., activities of the public health service relating to interstate milk shipper certification program, 304

FOLTZ, V. D., staphylococci in dairy products. II. Cheese, 342

FISHER, M. R., editorial: a case for fee financing, 137

FLAKE, J. C., editorial: milk sanitarian and chemical residues, 103

FOWLER, K. R., industrial use of welded lines - experiences at Sealtest Foods, 128

FRAZIER, W. C., 172 (see Obershofer); sanitation of CIP lines influenced by cleaning solution temperature, 347

FULLER, W. H., Composting city refuse, 385

GALTON, M. M., laboratory and epidemiological aspects of foodborne diseases, 104

GILBERTSON, W. E., sanitarian's role in the newer concept of environmental health, 309

GOULD, I. A., 317 (see Richards)

GREENE, V. W., problems with surface sampling techniques and apparatus in the institutional environment, 262; editorial: perspectives in hospital sanitation, 273

GUNIA, R. B., stainless steel in modern dairy equipment - care and maintenance, 95

HARTMAN, P. A., 143 (see Igarashi)

HEDRICK, T. I., 390 (see Pflug)

HENNIGH, D. E., industrial uses of welded lines - experiences at Safeway, 156

HENNINGSON, R. W., freezing point values and milk-solids-not-fat content of retail milk, 48

HERMAN, L. G., 262 (see Greene)

HOPPER, S. A., viruses and man, 250

HUNTER, C. A., staphylococci in dairy products. II. Cheese, 342

IGARASHI, R. T., rapid antibiotic assay methods using *B. stearothermophilus*, 143

JOHNS, C. K., techniques for assessing bacteriological condition of milking machines, 362

KAUFMANN, O. W., 390 (see Pflug)

KENNEDY, H. E., 317 (see Richards)

KEPPLER, R. A., 390 (see Pflug)

LAUGHLIN, P. E., food sanitation and quality control - facts and fallacies, 89

LAWTON, W. C., editorial: is self-inspection the answer? 203

LITSKY, W., editorial: definition of sterilization, 35

LONGREE, K., 207 (see Moragne)

MACHALA, W. E., bacteriology of frozen foods in Oklahoma City area, 323

MARTH, E. H., antibiotics in milk - a review. I. Recent developments, 36; antibiotics in milk - a review. II. Methods for detection, 70

MARTIN, W. H., staphylococci in dairy products. II. Cheese, 342

MATT, M. C., visual acuity of laboratory workers, 11

MAXCY, R. B., cleaning and sanitizing welded lines, 122

McCLURE, A. D., techniques for assessing bacteriological condition of milking machines, 362

METZGER, R. W., organization of a national program to reduce the incidence of mastitis, 221

MICKELSEN, R. staphylococci in dairy products. II. Cheese, 342

MILLER, W. A., microbiology of luncheon meats, 374

MOORE, J. M., freezing point of vacuum treated milk, 115; effect of CO_2 removal upon the freezing point of vacuum treated milk, 176

MORAGNE, L., cooling custards and puddings with cold-tube agitation, 207

MORIN, E. L., processing problems in the frozen food industry, 260

NEILL, A. H., sanitation in suburbia, 119

NELSON, F. E., 143 (see Igarashi)

OBERHOFER, T. R., competition of *S. aureus* with other organisms, 172

OSBORN, S., new areas in food sanitation supervision, 53

PARKIN, I. E., 315 (see Evans)

PFLUG, I. J., deposition and removal of radioactive soil, 390

PHEIL, C. G., 390 (see Pflug)

POWERS, J. J., 2 (see Somaatmadja)

PRATT, D. E., 2 (see Somaatmadja)

PROCTER, T. W., pneumatic tester for HTST booster pump control pressure switches, 321

PROUTY, C. C., 7 (see Vaid); penicillin in milk after intramuscular and intrauterine administration, 356

RICHARDS, R. J., antibiotic resistance and acid production among streptococcus starter cultures, 317
RUDDOCK, J. C., 274 (see Senn)
RUPEL, I. W., 19 (see Vanderzant)
SAULMAN, E. E., status of eradication of tuberculosis and brucellosis in cattle, 312
SCHIPPER, I. A., bovine mastitis - its detection and prevention, 83
SCHLAFMAN, I. H., 304 (see Faulkner)
SENN, C. L., fly exclusion fans, 274
SHAHANI, K. M., 122 (see Maxcy); factors affecting visual method of detecting antibiotics in milk, 138
SHAW, A. O., 7 (see Vaid)
SHEURING, J. J., presidential address, 287
SHIPE, W. F., meaning and significance of the freezing point of milk, 282
SLOCUM, G., bacteriological standards for frozen foods, 345
SMITH, A. C., 115, 176 (see Moore)
SMITH, W. F., 119 (see Neill)
SNUDDEN, B. H., sanitation of CIP lines influenced by cleaning solution temperature, 347
SOMAATMADJA, D., chemical methods for determination of freshness of fish, 2
SPECK, M. L., destruction of bacteria in milk after ultra-high-temperature pasteurization, 358; bacteriological aspects of high temperature pasteurization of ice cream mix, 378
SPEERS, J. F., sanitarian - director relationship, 338
STEELE, J. H., 104 (see Galton)

WHITE, J. C., 207 (see Moragne)

SUBJECT INDEX

Affiliate association programs (see IAMFS)
Antibiotics,
  detection, review of methods, 70
  dye addition, 70, 138
  rumen function, effect on, 41
Antibiotics in milk,
  after feeding cows, 39, 40
  after injection of cows, 7, 39, 356
  after treatment for bloat, 40
  allergic reactions, 43
  bacitracin, detection, 74
  detection, 74, 75, 237
    by *B. stearothermophilus*, 143
    by bacterial growth, 70
    by commercial starter cultures, 71
    by cylinder-plate method, 71
    disc assay, 145
    by dye addition, 70, 138
    by dye reduction, 72, 143
    field tests, 77
    by *Lactobacillus bulgaricus*, 71
    merits of methods for, 101
    miscellaneous methods, 77
    by *Streptococcus agalactiae*, 71
    by *Streptococcus lactis*, 71
    by *Streptococcus thermophilus*, 71
    visual methods, 139
  effect of low temperature storage on persistence, 42
  effect on starter cultures, 41
  erythromycin, detection, 74
  interaction with constituents, 42
  interaction with enzymes, 43
  interaction with salts and proteins, 43
  magnamycin, detection, 75
  penicillin, detection, 74
  polymyxin, detection, 74
  review of recent developments, 36
  streptomycin, detection, 74
  surveys of milk supplies, 36
  tetracyclines, detection, 74
Awards,
  affiliate,
    Georgia association, 64, 332
    Minnesota association, 329
  citation, recipient, 291
  sanitarian's recipient, 290
Bacteria,
  destruction in milk after ultra-high pasteurization, 358
  disease, relation of numbers of, 109
  staphylococci, in cheese, 342
  S. aureus, competition with other organisms, 172
  starter cultures, antibiotic resistance of, 317
Bacterial counts,
  direct microscopic method, reliability, 101
  freezing milk, effect on, 270
  standard plate count,
    incubation temperature, 101
    reliability, 101
  visual acuity, effect of on accuracy, 11
Cheese,
  staphylococci in, 342
Chemical residues, relation to milk sanitation, 103
Cleaning,
  deposition and removal of radioactive soil, 390
  welded lines, 122
Committees (see IAMFS)
Compost, city refuse, 385
Council of affiliates, minutes, 29
Dairy products,
  butter, coloring agents, 302
  buttermilk, antibiotics in, 237
  cheese, staphylococci, in, 342
  chocolate milk, *Coxiella burnetii*, destruction, 351
  cottage cheese, antibiotics in, 237
  cream, *Coxiella burnetii*, destruction, 351
  dietary preparations, 238
  ice cream,
    bacteriological aspects of high temperature pasteurization, 378
    Coxiella burnetii, destruction, 351
  labelling, definitions, standards, committee report, 229
Disease,
  brucellosis, eradication, 312
  foodborne, epidemiology, 104
  mastitis (see Mastitis)

tuberculosis eradication, 312
Dyes, (see Antibiotics in Milk)
addition to antibiotic preparations, 138
Environmental health (see Health)
Fee system, 1
Fish,
carp, tests for freshness, 2
chemical analysis for freshness, 2
freshness, determination of, 2
nitrogen constituents, 3
organoleptic evaluation, 3
reducing substances, 3
total volatile acid number, 3
trimethylamine content of carp, 2
Flys,
exclusion fans, effectiveness, 274
Food (see also individual listings)
chemical residues on, 152
crab meat, technology of production, 211
custards, cooling, 207
dietary, 238
fish, 2
foodborne disease (see Disease)
fungicides, regulation of, 180
insecticides, regulation of, 180
inspection, government services, 91
luncheon meats, microbiology of, 374
meat tenderizers, toxicity, 59
plants, protection of during emergencies, 186
puddings, cooling, 207
quality control, 89
radiation preservation, 59
rodenticides, regulation of, 180
sanitation, 89
warehousing and storage, 276
Foodborne disease,
bacteria, relation to large numbers, 109
botulism, 109
enteric bacteria, 110
laboratory investigation, 112
reporting of, 110
salmonellosis, 104
shigellosis, 110
staphylococcal food poisoning, 107
trichinosis, 110
Frozen foods,
bacteriological standards, 345
bacteriological study of, 323
processing problems, 260
warehousing and storage, 276
Health,
environmental, 381
sanitarian's role, 309
Helpful information, 102, 136, 170, 273, 331
Herbicides,
residues on foods, 152
Ice cream (see Dairy products)
Insecticides, regulation of, 180
Inspection,
cost, 1
federal regulation of milk, 171

CONTENTS, VOLUME 24

JANUARY (NO. 1)

Editorial: To Fee or Not To Fee? *Harold J. Barnum and Frank B. Clack* ---------- 1
Chemical Methods for the Determination of the Freshness of Fish. *Dardjo Somaatmadja, John J. Powers and Dan E. Pratt* ---------- 2
Penicillin Levels in Milk Following Parenteral Administration of Procaine Penicillin G. *M. Yusaf Vaid, C. C. Prouty, A. O. Shaw and R. E. Watts* ---------- 7
Visual Acuity of Laboratory Workers — A Prerequisite to Accuracy in Counting. *Morris C. Matt* ---------- 11
Report on the Proceedings of the Mastitis Action Conference. ---------- 15
Determination of the Protein Content of Milk by a Modification of the Steam Distillation Method of Kofronyi. *C. Vanderzant, M. A. Brown and I. W. Rupel* ---------- 19
Committees of the International Association of Milk and Food Sanitarians, Inc., for 1961 ---------- 22
Affiliates of IAMFS, Inc. ---------- 26
News and Events ---------- 27
Index to Advertisers ---------- 34
Journal of Milk and Food Technology Instructions to Contributors ---------- V

FEBRUARY (NO. 2)

Editorial: Comments Concerning the Definition of Sterilization. *Warren Litsky* ---------- 35
Antibiotics in Milk — A Review 1. Recent Developments. *E. H. Marth* ---------- 36

Studies on the Use of Sewage Effluent for Irrigation of Truck Crops. *Stuart G. Dunlop and Wen-Lan Lou Wang* -- 44
Freezing Point Values and Milk Solids-Not-Fat Content of Retail Milk. *R. W. Henningson* ---------- 48
New Areas in Food Sanitation Supervision. *Siegel Osborn*- 53
The Responsibilities of a Sanitarian. *E. Lee Everett* ---- 55
News and Events ---------- 57
Announcement Concerning the Sanitarians Award for 1961 ---------- 57
Announcement Concerning the Citation Award for 1961 ---------- 58
Questions and Answers ---------- 59
Index to Advertisers ---------- 68
Classified Ads ---------- V

MARCH (NO. 3)

Editorial: Why a Double Sanitation Standard for Milk? *A. C. Dahlberg* ---------- 69
Antibiotics in Milk — A Review II. Methods for Detection. *E. H. Marth* ---------- 70
Bovine Mastitis: Its Detection and Prevention. *I. A. Schipper* ---------- 83
Food Sanitation and Quality Control — Facts and Fallacies. *Paul E. Laughlin* ---------- 89
Stainless Steel in Modern Dairy Equipment — Its Care and Maintenance. *R. B. Gunia* ---------- 95
News and Events ---------- 98
Papers Presented at Affiliate Association Meetings --100
Questions and Answers ----------101
Helpful Information ----------102
Classified Ads ----------101
Index to Advertisers ---------- VI

APRIL (NO. 4)

Editorial: The Milk Sanitarian and Chemical Residues. *J. C. Flake* ----------103
Laboratory and Epidemiological Aspects of Foodborne Disease. *Mildred M. Galton and James H. Steele* ------104
Observations on the Freezing Point of Vacuum Treated Milk. *J. M. Moore and A. C. Smith* ----------115
Sanitation in Suburbia. *A. H. Neill and W. F. Smith*----119
Cleaning and Sanitization of Welded Line Systems for Handling Milk. *R. Burt Maxcy and K. M. Shahani* --------122
Industrial Uses of Welded Sanitary Pipelines — Experiences at Sealtest Foods. *Karl R. Fowler* ----------128
News and Events ----------129
Helpful Information ----------136
Index to Advertisers ---------- V
Classified Ads ---------- VI

MAY (NO. 5)

Editorial: A Case for Fee Financing. *Milton R. Fisher* ----137
Factors Affecting the Visual Method of Detecting Antibiotics in Milk. *K. M. Shahani* ----------138
Rapid Antibiotic Assay Methods Using Bacillus Stearothermophilus. *R. T. Igarashi, R. W. Baughman, F. E. Nelson and P. A. Hartman* ----------143
Waste Treatment by Stabilization Ponds. *Charles E. Carl* ----------147
Spray Residues on Fruits and Vegetables. *T. E. Sullivan*-152
Industrial Use of Welded Pipelines — Experiences at Safeway Stores. *D. E. Hennigh* ----------156
Industrial Uses of Welded Pipelines — Regulatory Aspects. *George D. Coffee* ----------159
Notice of Change of Location of Annual Meeting of IAMFS, Inc. ----------161
Affiliates of IAMFS ----------162
News and Events ----------163
Papers Presented at Affiliate Association Meetings--166
Letter to the Editor ----------170
Helpful Information ----------170
Classified Ads ---------- V
Index to Advertisers ---------- V

JUNE (NO. 6)

Editorial: Is Federal Milk Regulation the Answer? *Paul Corash* ----------171
Competition of Staphylococcus Aureus With Other Organisms. *T. R. Oberhofer and W. C. Frazier* ----------172
The Effect of Carbon Dioxide Removal Upon the Freezing Point of Vacuum Treated Milk. *J. M. Moore, A. C. Smith and D. C. Gosslee* ----------176
Announcement Concerning Golden Anniversary Meeting. *John J. Sheuring, President, IAMFS* ----------179
Regulation of Bactericides Under the Federal Insecticide, Fungicide and Rodenticide Act. *L. S. Stuart* --------180
Protection of Food Processing Plants During National Emergencies. *James W. Bell* ----------186
Committee Reports — 1960
Dairy Farm Methods ----------189
Educational and Professional Development --------191
Baking Industry Equipment ----------192
Ordinances and Regulations ----------193
Research Needs and Applications ----------194
Food Equipment Sanitary Standards ----------194
News and Events ----------195
Papers Presented at Affiliate Association Meetings --199
Questions and Answers ----------199
Obituaries ----------202
Classified Ads ----------VII
Index to Advertisers ----------VII

JULY (NO. 7)

Editorial: Is Self-Inspection The Answer? *W. C. Lawton* --203
Effect of Pipeline Milking and Bulk Handling on the Acid Degree of Raw Milk. *D. C. Brown and W. R. Thomas*-204
Cooling Custards and Puddings with Cold-Tube Agitation. *Lenora Moragne, Karla Longrée and James C. White*-207
Technology of Crabmeat Production — A Bibliography. *Melvin A. Bernarde* ----------211
Committee Reports — 1960
Sanitary Procedure ----------217
Frozen Food Sanitation ----------218
The Organization of a National Program to Reduce the Incidence of Mastitis. *R. W. Metzger* ----------221
Program of the Forty-Eighth Annual Meeting ----------224
News and Events ----------229
Central Ontario Sanitarians Association Makes Recommendations ----------231
Open Letter to South Carolina Sanitarians from a Military Member ----------233
Papers Presented at Affiliate Association Meetings --235
Questions and Answers ----------237
Classified Ads ----------238
Index to Advertisers ----------238

AUGUST (NO. 8)

Editorial: Fifty Years of Leadership. *H. S. Adams* ------239

A Comparison of Cooling Performances of Farm Bulk Milk Tanks. *L. F. Charity, L. B. Altman and R. A. Belknap* ---240
Viruses and Man. *Samuel H. Hopper* ---250
Golden Anniversary Section:
A Half Century of Progress. *H. S. Adams* ---252
Benefits of Your Membership in IAMFS. *H. L. Thomasson* ---254
Scenes of Past Annual Meetings. ---257
Processing Problems in the Frozen Food Industry. *E. L. Morin* ---260
Problems Associated with Surface Sampling Techniques and Apparatus in the Institutional Environment. *V. W. Greene and L. G. Herman* ---262
Affiliates of IAMFS, Inc. ---266
News and Events ---267
Questions and Answers ---270
Helpful Information --- IX
Classified Ads ---XIII
Index to Advertisers ---XIII

SEPTEMBER (NO. 9)

Editorial: Perspectives in Hospital Sanitation. *V. W. Greene* ---273
Fly Exclusion Fans. *Chas. L. Senn, Norman R. Ehmann, Seymour Barfield and John C. Ruddock* ---274
Problems of Warehousing and Storage of Frozen Foods *Hubert M. Arons* ---276
Principles Governing Sanitary Milk Regulations Recommended by the Association of State Territorial Health Officers. *Russell E. Teague* ---278
The Meaning and Significance of the Freezing Point of Milk. *W. F. Shipe* ---282
48th Annual Meeting of the International Association of Milk and Food Sanitarians, Inc. ---285
News and Events ---296
Papers Presented at Affiliate Association Meetings ---299
Letter to the Editor ---301
Questions and Answers ---302

Index to Advertisers ---VII

OCTOBER (NO. 10)

Editorial: Vitamin D Milk Today. *Franklin C. Bing, Ph. D.* ---303
Activities of the U. S. Public Health Service Relating to the Interstate Milk Shipper Certification Program — 1959-1960. *John D. Faulkner and Irving H. Schlafman* ---304
The Sanitarian's Role in the Newer Concept of Environmental Health. *Wesley E. Gilbertson* ---309
The Present Status of the Eradication of Tuberculosis and Brucellosis in Cattle. *Dr. E. E. Saulmon* ---312
Butterfat Shrinkage in Farm Milk Cooling Tanks. *Darl L. Evans and Ivan E. Parkin* ---315
Antibiotic Resistance and Acid Production Among Starter Cultures Belonging to Genus Streptococcus. *R. J. Richards, H. E. Kennedy and I. A. Gould* ---317
A Simple Pneumatic Tester for Checking and Setting Pressure Switches for HTST Booster Pump Control. *Tom W. Procter* ---321
A Bacteriological Investigation of Frozen Foods in the Oklahoma City Area. *Walter E. Machala* ---323
News and Events ---327
Minutes of the Annual Meeting of the Council of Affiliates, 1961 ---330
Papers Presented at Affiliate Association Meetings ---331
